

TO: ALL ACTS APPERAING ON THE SHOWCASE STAGE  
FROM: DOLLFIN MUSIC, SOUND AND PRODUCTION  
RE: DETAILS OF PERFORMANCE

Thank you for offering to perform on this years' Showcase Stage. The stage is located on West Center Street between City Hall and the Palace Theatre. (See Map Below)

Parking for performers will be the same as in the past as we are on a blocked off street. When coming to set-up please pull up behind the stage. Police will be working in the area of the city streets and will be able to help you also.

Dollfin Music, Sound & Production (DMS) will be providing the sound system. It will allow you to plug in 8 microphones or direct lines only. The system is 1500 watts maximum out front with a pair of monitors running 100 watts each. Please bring your own amps and musical equipment. DMS will provide you with up to 6 vocal microphones. If you require more please feel free to bring them with you along with cables. DMS will be on hand to assist you with the equipment set up and playing of sound tracks. You must with the assistance of the DMS staff prepare your own stage. Please have your sound engineer (if applicable) meet with a DMS representative 30 minutes prior to your performance. For safety purposes, rain or inclement weather may delay, postpone or cancel your show.

If you are a dance group or singer that uses your own music please bring CD's. We no longer have a tape player and prefer CD's or digital music. We have found that the CD's sound better and last longer. Please also provide a person to assist our staff with organization of the music for the performance.

Have a great show and if you have any questions please call John Larkin (740) 360-2622 or Marilyn Larkin at (740) 361-5877.

You have a master and a copy of your agreement to be on the stage in this mailing. By signing and sending the copy back to me, you have stated that you have read this letter and the agreement form.
